Why choose our poultry this Christmas?

Great Grove Turkeys - Dry plucked	The supermarkets wet plucked
Grown to maturity 24-27 weeks old, which gives them a layer of fat which makes the meat nice and juicy	Immature, 12-14 weeks old, no fat whatsoever
Given free access to grass and woodland day and night	Reared on so-called free range systems but often fairly cramped
Bedded on fresh, dry straw	Not littered frequently, which gives the birds breast blisters
Fed on the best organic feed	Fed on rations to ensure the quickest growth possible
Processed on a farm where the birds are reared, so there is no travelling whatsoever	Can be loaded & driven miles in cramped crates which makes them stressed
Dry plucked by hand	Wet plucked in hot stale water
Delayed evisceration & hung in chillers to tenderise the meat, normally 7-21 days	Hot eviscerated, blast chilled & usually gas flushed then in to the retailers the next day
Sinews pulled	Sinews not pulled
Golden Turkey guarantee, raised on a small family farm	No guarantee, large scale production

About our Free Range Bronze Turkeys

Supplied by Great Grove. These are Free Range and Organic Turkeys that are reared and fed on high quality Organic feed. They are one of the few Organic Turkey producers in the country that hang and dry pluck their Turkeys in the traditional way. All of their Turkeys are dry plucked and hand finished on their farm using modern facilities. They are game hung for up to two weeks in purpose built refridgerated rooms. This ensures the Turkeys are moist, tender and develop that full old fashioned flavour that Great Grove Turkeys are renowned for. They pride themselves on the care and attention given to the welfare of their Turkeys ensuring they are reared in a happy stress-free environment.
